

JAY LAB

FULL BIO

All of Jay Lab members - Jay (Lead Vocals, acoustic guitar), Dudu Martins (lead guitar), Henrique (Bass/ vocals), Mateus(keys, Saxophone, Harmonica), and Vini (drums) - have been involved with music in one way or another for most of their life. They aim to flavour their music with some Latin American Sauce in effort to change up the landscape here in Australia. "We have been creating different versions for the old school music, and it feels good" states Jay.

"Jay Lab is going to write songs and tell stories about love, lifestyle, and politics. "This is THE year, and we are coming more versatile than ever" says Mateus.
